

When

Wed-Thurs March 20-21, 2019

Where

**SKILLS SOCIETY
10408 124 St. NW
Edmonton, AB**

Training Agenda - 12 hours

1. Discuss the prevalence and presentation of Fetal Alcohol Spectrum Disorder
2. Understand alcohol's effect on the developing brain and the impact this has on learning and function
3. Describe and discuss the developmental trajectory of FASD and the supports and accommodations individuals with an FASD require through their life span
4. Identify the underlying themes that guide practice with children, youth and adults with an FASD.
5. Describe and discuss the elements that support a "stable placement"
6. Anticipate the impact of FASD on care and care-providers and define appropriate, realistic, and attainable goals
7. Describing the value and benefits of dynamic case management
8. Coordinating a community response – working collaboratively

Cost

\$300 + \$15 gst = \$315

If you are with an agency, registering 2 participants gives you a complimentary 3rd registration.

Caregivers can register a primary caregiver and have a secondary caregiver (same household) attend at no cost.
